November 2015. this month will be noted for the exceptional rainfall with 192.7mm falling over 200% of normal. It was also mild with temperatures 1.5c above the long term average, second only to 2011. The first half of the month was very mild with Mean temperatures 3c above normal, fortunatley cooler weather with a few snowy days brought the temperatures nearer to normal. November was the only month so far where temperatures have been above normal. There were no dry s and sunshine was limited. Very windy end of the month with a
