

Brampton White Christmas's 1999-2023

A lot of things need to come together for a White Christmas, they appear to be a rare event these days and infact no snow has fallen on Christmas Day since 2010 !

1999 - Hail and snow showers gave a thin cover by 8pm - Rating 1/10

2000 – Light snow after 12noon -- dusting - Rating 3/10

2001 – Dusting overnight. Dry during daylight hours - Rating 2/10

2004 – Snow overnight 2cm depth at 0900hrs - Rating 5/10

2009 – 6cm of snow present at 0900hrs, (5cm was present from previous falls), snow showers during the day - Rating 7/10

2010 – 2cm of old snow at 0900hrs, light snow during the day, additional dusting - Rating 4/10
